Guidelines for
SCHOOL GROUPS VISITING THE MUSEUM

1. The number of students that can comfortably fit into the Museum in a session are approx. forty (40).
2. Students would be divided into 4 groups of 10 with either a teacher or parent in attendance while they rotate through the museum.
3. The Museum volunteers are available to give an introduction and brief history if requested; and help guide the children around.
4. If a topic, assignment or questionnaire is being covered by students it would help to let us have details two (2) weeks before their visit.
6. Please book early so that adequate Volunteers can be available on the day.

ADMISSION CHARGE

It would be appreciated if the admission price of \$1 per student be collected **before** entering the Museum and payment made **on the day**.

We hope your students will gain valuable knowledge visiting our wonderful collection.
